

TYZACK MACHINE KNIVES

Precision Scrap
Processing Blades

Recognised for quality for over 50 years

Based in Sheffield, at the heart of the UK's machine knife industry, Tyzack Machine Knives are part of the Tinsley Bridge Group and are the UK's largest manufacturer of precision scrap shear blades.

Manufactured to the exacting standards of OEMs across the world, ULTIMAX scrap shear blades have been recognised for their quality for over 50 years.

Static, alligator and attachment blades can be specified in Ultimax 'CBS', Ultimax 'HA' or Ultimax 'HP' quality – to suit individual preferences and budgets.

- **'Hard'** machining for accuracy where necessary
- All blades heat treated **'in-house'**
- New **'state of the art'** manufacturing facility erected 2015
- Popular blades **'in stock'** for immediate despatch
- Large **'on-site'** raw material stocks for both qualities
- All **'popular'** machines & models covered

Blade seats, bolts and nuts also available on request

Attachment Shear Blades

Static Shear Blades
